“ A design space can be defined by process outputs ” Inconsistent with design space definition in ICH Q8(R2) “ If the product is manufactured within the design

Design Space Considerations

Why is unenclosed space, or background, so vital in visual design? Ground, or interstitial space is a critical “captured space” and not just passive, empty distance between other parts, but a tool that gives vitality to relationships of shapes. Unenclosed space is complementary to enclosed space, or shape, and shape is complementary to space. 1.
