A Framework for Designing Nursing Knowledge Management Systems 14 Consequently, as e-health has become the norm, the barriers to transparent and accessible infor-

A Framework for Designing Nursing Knowledge Management Systems

Database design is the organisation of data according to a database model. The designer determines what data must be stored and how the data elements interrelate. With this information, they can begin to fit the data to the database model.

Database design - Wikipedia

Design (as a verb: to design) is the intentional creation of a plan or specification for the construction of an object or system or for the implementation of an activity or process.. Design (as a noun: a design) can refer to such a plan or specification (e.g. a drawing or other document) or to the created object, etc., and features of it such as aesthetic, functional, economic or socio-political.
